DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the first set and second set of optical fibers must be shown or the feature(s) canceled from the claims 1-14. The figures show only one optical fiber in the first layer and the second layer. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Objections

3. Claims 1-14 are objected to because of the following informalities:

- Claim 1, line 5: "with" should be deleted.
- Claim 2, line 8: "of" should be deleted.
- Claim 4, line 8: "of" should be deleted.
- Claim 6, line 8: "of" should be deleted.
- Claim 8, line 8: "of" should be deleted.
- Claim 10, line 7: "of" should be deleted.
- Claim 12, line 7: "of" should be deleted.

Appropriate correction is required.

Allowable Subject Matter

4. Claims 1-14 are allowable.
5. The following is a statement of reasons for indicating allowable subject matter:

Prior art does not show a flexible tow table with two layers of strength members interspersed with optical fibers wherein one optical in the first layer and one in the second layer intersect a common vector extending radially from the central axis of the cable and the temperature is measured by measurement of light emitted onto the vector and the optical fibers as required by independent claims 1, 5 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2839

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. This application is in condition for allowance except for the following formal matters:

Correction to drawings and minor corrections to claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
